Profile

Seeking a dynamic career in a professional company that fosters growth and development, leveraging my skills and expertise in Biomedical Engineering to embrace challenging opportunities and contribute to organizational success. Committed to ongoing learning and excellence, actively pursuing opportunities to achieve and exceed established goals.

Work experience

12/2022
Trivandrum, India

Engineering intern NIMS Hospital

- Completed a 5-day internship within the Biomedical department as an Engineering intern, demonstrating mastery in identifying and analyzing various products and machines utilized within the hospital environment.
- Facilitated the development of innovative solutions aimed at enhancing overall departmental efficiency, leveraging technical knowledge and critical thinking skills to contribute to the success of the team.
- Collaborated with department leaders and peers to ensure seamless integration of new technological advancements, while adhering to strict safety and regulatory protocols.
- Demonstrated a keen attention to detail and a proactive approach to problem-solving, consistently delivering high-quality results within tight deadlines.

Education

06/2020 – present
Kollam, Kerala, India

Biomedical Engineering | Bachelor Of Technology TKM Institute of Technology Score- 78%

06/2018 – 04/2020
Thiruvalla, India

Biomaths | ISC(12th) Mar Thoma Residential School, Thiruvalla Score - 79.4%

04/2018
Chengannur, India

ICSE(10th) Mathews Mar Athanasius Residential School Score - 74.3%

PROJECT

Smart iv fluid alerting system

- ♦ intravenous therapy is a medical technique used to deliver fluids and medications directly into a person's vein.
- ♦ This System uses a weight sensor to detect the fluid level in the IV and transmits the data over a GSM Module
- ♦ Implemented a comprehensive algorithm to detect deviations from normal ranges, triggering timely alerts to healthcare providers.
- ♦ The integration of wireless communication technology, allowing seamless transmission of alerts to medical staff's mobile devices in real-time.

EXTRA CURRICULAR ACTIVITIES:

Coordinator of magazine and news letter at BLAZE (Biomedical League for Advanced Zenith Excellence) - 2022

- ♦ Orchestrated the team's efforts towards achieving project goals and objectives'
- ♦ Demonstrated exceptional leadership skills in directing and motivating team members towards peak performance

Event Coordinator for BLAZE (Biomedical League for Advanced Zenith Excellence) - 2021

- ♦ Demonstrated leadership skills by managing event logistics, coordinating with team members, and ensuring smooth operations.
- ♦ Facilitated communication between team members, stakeholders, and attendees to ensure a positive experience and successful outcomes.
- ♦ Actively contributed to the development of strategies and initiatives designed to attract and engage participants, sponsors, and partners.

Headed the documentation team for the National Service Scheme (NSS) organization-2022

- ♦ Utilized effective communication and organizational skills to streamline documentation processes and ensure accuracy.
- ♦ implemented innovative strategies to efficiently manage and track project progress.
- ♦ Collaborated with team members to create comprehensive and professional documentation for internal and external purposes.
