OBJECTIVE

Motivated and detail-oriented Computer Science graduate with a passion for software development and emerging technologies. Seeking a challenging technical role where I can leverage my problem-solving abilities, analytical mindset, and collaborative skills. Committed to continuous learning and professional growth, I aim to contribute effectively to innovative projects while gaining hands-on experience in a dynamic, fast-paced environment.

EXPERIENCE

Python Intern NMinusTwo Solutions

July 2024 - Present

As a Python Intern, I developed and optimized Python-based web applications, collaborating with teams to improve software functionality. I worked on designing efficient solutions for data handling and implemented key features to enhance application performance.

EDUCATION

BTECH, College of Engineering, Kalliooppara

2024

Course: Computer Science and Engineering

XII, St. Thomas Higher Secondary School Thirumoolapuram

2020

Percentage: 75

X, Ebenezer English Medium High School, Kallissery

2018

Percentage: 85

SKILLS

Technical Skills PYTHON, DJANGO, HTML, CSS, SQL

Soft Skills Communication, Teamwork, Adaptability, Logical Reasoning, Problem-Solving Skills

PROJECTS

Main Project- Emotion and Sentiment Analysis.

Implementing comprehensive emotion and sentiment analysis using React for front-end interface, MongoDB for data storage, and Python for processing text, speech, and visual data. Enabled nuanced interpretation of human expression across various digital mediums.

Mini Project- KTU Result Analysis. Developed KTU Result Analysis website using HTML, CSS, JavaScript. Allows staff advisors to upload, modify, view, and download student results, facilitating easy analysis of backlogs and CGPA.

INTERSHIPS

- **AcmeGrade:** Attended the internship program focusing on Artificial Intelligence, gaining insights into its scope and prospects across industries. Developed skills in Python programming essential for AI engineering, and acquired knowledge on AI applications in various sectors.

CERTIFICATES

- **Techathlon:** Participated in Annual Technical Skills Competition organized by ICT Academy of Kerala for undergraduate, graduate, and postgraduate students. Demonstrated creativity, problem-solving, collaboration, communication, and prototyping skills aligned with global employability standards.
- **Python 3.4.3:** Participated in IIT Bombay's FOSSEE project, supported by MHRD's National Mission on Education through ICT, promoting Python for Scientific Computing in India. Contributed to organizing scripts for "Python for Scientific Computing" workshops using Spoken Tutorials.
