

Marvin Mathew Ignatious

Python Full Stack Developer

+91 9061205300 | imarvinmathew@gmail.com |  LinkedIn |  GitHub

Profile

Enthusiastic **Python Full Stack Developer** with a passion for building scalable and efficient web applications using Python, Django, and REST APIs. A quick learner and problem solver, eager to contribute to innovative projects. Committed to writing clean, maintainable code while continuously expanding technical expertise.

Experience

Python Full Stack Developer Intern **Inmakes Infotech Pvt. Ltd.** May 2025 - Present

- Learning both basic and advanced concepts of full stack development.

Python Full Stack Developer Intern **NMinusTwo Solutions** August 2024 - March 2025

- Implemented a **certificate generation module** for dynamically creating certificates.
- Built a **Task Management System** with complete CRUD operations.
- Built an **Exam Portal** for managing online assessments.
- Developed a **Loan Management System** with REST API integration and deployment.
- Developed a **full-fledged E-commerce platform** with secure transactions and payment gateway integration.

Projects

E-Commerce Website

- **User-friendly platform** for browsing products, managing carts, and orders.
- **Secure authentication** with JWT tokens.
- **Admin dashboard** for managing products, orders, users, and payments.
- **Responsive design** with HTML, CSS, and Bootstrap.
- **RESTful APIs** for handling products, orders, and users, and **Online payments**.
- **Optimized database** with PostgreSQL using Django ORM.

Tech Stack: Django, Django REST Framework, PostgreSQL, HTML, CSS, Bootstrap.

Loan Management System REST API

- Django-based REST API to manage loans with monthly compound interest and flexible repayment options.
- Role-based access using JWT for Admin and User, with OTP email verification via Nodemailer.
- Users can apply for loans, view loan details, and foreclose loans with adjusted interest.
- Admins can view and manage all user loans in the system.

Tech Stack: Django, Django REST Framework, PostgreSQL, JWT (Simple JWT), Nodemailer (SMTP)

Skills

Languages: Python, Java, Javascript, HTML, CSS

Frameworks/Libraries: Django, Django REST Framework

Databases: MySQL, PostgreSQL, MongoDB

Others: Git, Postman, RESTful APIs, Fast APIs

Education

Bachelor of Technology

College of Engineering, Kallooppara
Kerala Technological University

2020-2024
